

NO WIPES IN THE PIPES

Many products advertised as "flushable" do not break down and end up getting stuck and causing backups in sewer systems

Fixing the damage means greater COST for cities and residents.
Save your money and your pipes, only flush toilet paper

**Toilet Paper
breaks down
in water**

**Anything
Else**

**Other
"flushable"
items don't
break down
and should go
in the trash**
